

## **FWDBC'S PRO-AM SWISS TEAM GAMES**

**Schedule:** Pro-Am Swiss team games are held on the third Monday (1 PM) of each month with these exceptions: they will be on the second Monday (1 PM) in September; the fourth Saturday (1 PM) in October and there will be no Swiss team game in December.

**Ranking system:** To be sure that all our teams include both 0-299 MP and higher ranked players, each FWDBC player has been assigned a rank number from 3 to 1 (see ranking list on pp. 2-3 below) and each four-person team must be composed of players whose rank numbers total no more than 9. Most teams will form themselves, but pairs needing assistance can ask the director for help at least two days before the game.

**How to play Swiss teams:** there are four players (two pairs) on a team. Every round, each team's East-West pair plays against the other team's North-South pair for six hands, then scores are compared. Each new round, your team will play against a different team depending on who won or lost previous round(s). The team that wins the most rounds with the most points wins the event, but fractional masterpoints are also awarded for every round a team wins.

**Play during the game:** During any round in which each team has one pair of higher-ranked players and one pair of lower-ranked players (for example, one pair has a 4- and a 3-ranked player and the other has two 1-ranked players), each team's higher-ranked players will play each other. When one team includes a 1-ranked player and the other does not, the former team may choose its pairings against the opposing team.

**Mentoring:** Some pairs may choose do limited mentoring during the game as long as it doesn't unduly delay the round. Hand records will not be available after the game.

**Strategy:** The score for each contract is the same in Swiss team games as it is in regular duplicate games. However, when scores of the opposing teams are compared, they are translated into "victory points" where much less value is given to overtricks and other minor differences in scores and much greater value is given to large differences. Therefore, pairs are advised to be sure to get to their game and slam contracts, and be sure to make these if at all possible. DO NOT take a chance of going down by trying to take risky overtricks. Also, don't compete too aggressively for part-scores, and don't double an opponent's contract for penalty unless you are absolutely sure of setting it.

**See following two pages for club players assigned to each rank** – Note that the second page includes Rank # 1 players with last names from J to Y. Remember that total team number of rank points can be no more than 9. Please contact the game director if you have any questions.
